4TH EDITION OF THE
INTERNATIONAL CHEMISTRY FORUM (ICF 2026)
MAY 13 & 14, 2026 - MARRIOTT HOTEL, RABAT

CHEMISTRY AT THE HEART OF INDUSTRIAL INTEGRATION

A key pillar of the national economy, Morocco's chemical sector accounts for nearly 30% of industrial production, represents the Kingdom's leading industrial investor, and generates over 190 billion dirhams in turnover, along with more than 180,000 direct and indirect jobs. Thanks to its cross-cutting positioning, the chemical industry stands out as an essential link in industrial integration, connecting the energy, mining, agriculture, automotive, batteries, advanced materials, and manufacturing sectors.

In an international context marked by the reshaping of value chains, evolving geopolitical balances, the energy transition, and accelerating technological change, industrial integration has emerged as a key lever for competitiveness, resilience, and sustainable value creation. Through its ability to transform materials, connect industries, and catalyze innovation, chemistry occupies a central role in this dynamic.

It is within this context that the Federation of Chemistry and Parachemistry is organizing the **4th edition of the International Chemistry Forum**, to be held on **May 13 and 14, 2026 at the Marriott Hotel in Rabat**, continuing its commitment to integrated, high-performance, and sustainable industrial development.

Building on the success of previous editions, the International Chemistry Forum has established itself as a leading platform for dialogue among industrial leaders, public decision-makers, international experts, investors, and research stakeholders. After highlighting in past editions the strategic role of chemistry in the energy transition—particularly through high-performance batteries, green hydrogen, and the valorization of mineral resources—this 4th edition marks a natural evolution toward a systemic approach to industrial integration.

This edition aims to showcase the role of chemistry as a driver of industrial value chain integration. The program is structured around plenary conferences and topical thematic panels.

As a true space for reflection, exchange, and co-construction, the 4th edition of the International Chemistry Forum positions itself as a strategic event to support the emergence of an integrated industrial ecosystem, where chemistry plays a central role in creating synergies, upgrading value chains, and developing a sustainable industry connected to global dynamics.

4TH EDITION OF THE
INTERNATIONAL CHEMISTRY FORUM (ICF 2026)
MAY 13 & 14, 2026

**CHEMISTRY AT THE HEART OF INDUSTRIAL
INTEGRATION**

DAY 1

09h00 – 09h30 : OFFICIAL OPENING CEREMONY

- **Mr. Abed CHAGAR:** President, Federation of Chemistry and Parachemistry
- **Mr. Ryad MEZZOUR:** Minister of Industry and Trade (TBC)
- **Ms. Leila BENALI:** Minister of Energy Transition and Sustainable Development (TBC)
- **Mr. Azzedine EL MIDAOU:** Minister of Higher Education, Scientific Research and Innovation (TBC)
- **Mr. Chakib ALJ:** President, General Confederation of Moroccan Enterprises (CGEM) (TBC)
- **Mr. Mostafa TERRAB:** Chairman & CEO, OCP Group (TBC)

10h30 – 12h00 : KEYNOTES & EXPERTS

AI for Science & Chemistry: M. Mohamed BENOuada, CEO of ABATECHNOLOGY

Geopolitical News: Mr. Alain JUILLET, Honorary President of the Academy of Economic Intelligence

PANELS - DAY 1

14h00 – 15h15 | Panel 1 – Supply Chain: Positioning Morocco in Global Flows

15h30 – 16h45 : Panel 2 – Energy, Transition and Industry: Foundations of Sustainable Industrial Integration

17:00 – 18:00: Panel 3 – Chemistry & Technology: Innovation and Industrial Performance

DAY 2

09:30 – 10:30: Panel 4 Raw Materials: A Strategic Lever for Industrial Value Chains

11:45 – 12:30: Panel 5 Human Capital: What Skills for the Future of the Chemical Industry?

12:30 – 13:00 – Forum Closing

About the 4th Edition of the International Chemistry Forum

TECHNICAL FACT SHEET

Event: International Chemistry Forum – 4th edition

Format: Forum (Keynotes / Panels / Q&A / Networking / “Chemistry Village” (booths))

Type of event: In-person, with live streaming

Language: French with English interpretation

Provisional dates: 2 days – May 13-14, 2026

Venue: Marriott Hotel, Rabat

Participants: In-person: 400-500 attendees

Organizer:

Federation of Chemistry and Parachemistry (FCP)

Partners:

- Ministry of Industry and Trade
- Moroccan Agency for Investment and Export Development (AMDIE)
- CGEM, ASMEX, Green H2 Cluster, Chemistry Cluster, FMP, FMIIP, FDIM,

*FOR THIS EVENT, THE FCP WILL REQUEST THE HIGH PATRONAGE
OF HIS MAJESTY THE KING MAY GOD ASSIST HIM.*
